

**Rollout of Online Service for Reporting the Arrival of Other Foods  
Imported from the Mainland to Hong Kong via the Land-Route**

The Centre for Food Safety (CFS) of the Food and Environmental Hygiene Department announced that with effect from 11 April 2022, traders may submit the arrival report of other foods (i.e. foods other than eggs, meat, poultry, game, milk and frozen confections) imported from the Mainland to Hong Kong by land and handle matters concerning the release of the consignments online through the Food Trader Portal ([www.ftp.cfs.gov.hk](http://www.ftp.cfs.gov.hk)).

Starting from 11 April, importers with FTP accounts may report arrival of the consignments of other foods imported from the Mainland by land online. If the arrival report is accepted, the importer will be notified through the FTP regarding inspection and release of the consignments. Upon completion of all the procedures, the CFS will issue a release letter through the FTP.
