**Import of poultry meat and products from Aalborg Municipality in Denmark suspended**

The Centre for Food Safety (CFS) of the Food and Environmental Hygiene Department announced today (January 31) that in view of a notification from the World Organisation for Animal Health (OIE) about an outbreak of low pathogenic H5N1 avian influenza in Aalborg Municipality, Denmark, the CFS has instructed the trade to suspend the import of poultry meat and products, including poultry eggs, from the area with immediate effect to protect public health in Hong Kong.

A CFS spokesman said that Hong Kong imported about 1,960 tonnes of frozen poultry meat and 795,000 poultry eggs from Denmark last year, according to the Census and Statistics Department.

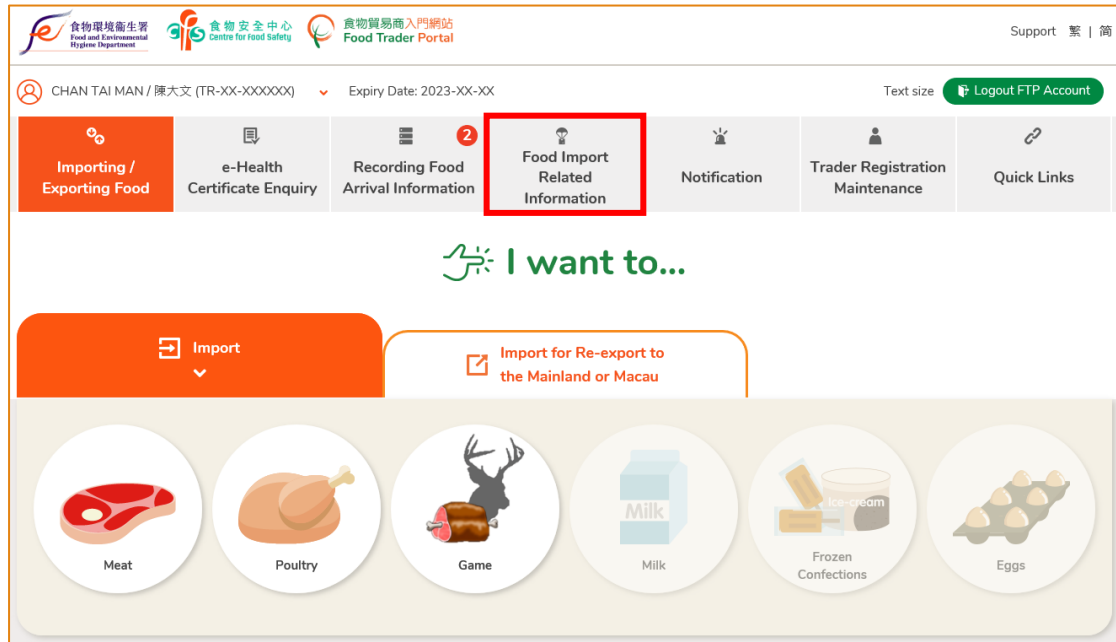

"The CFS has contacted the Danish authorities over the issue and will closely monitor information issued by the OIE on avian influenza outbreaks. Appropriate action will be taken in response to the development of the situation," the spokesman said.

Ends/Friday, January 31, 2020

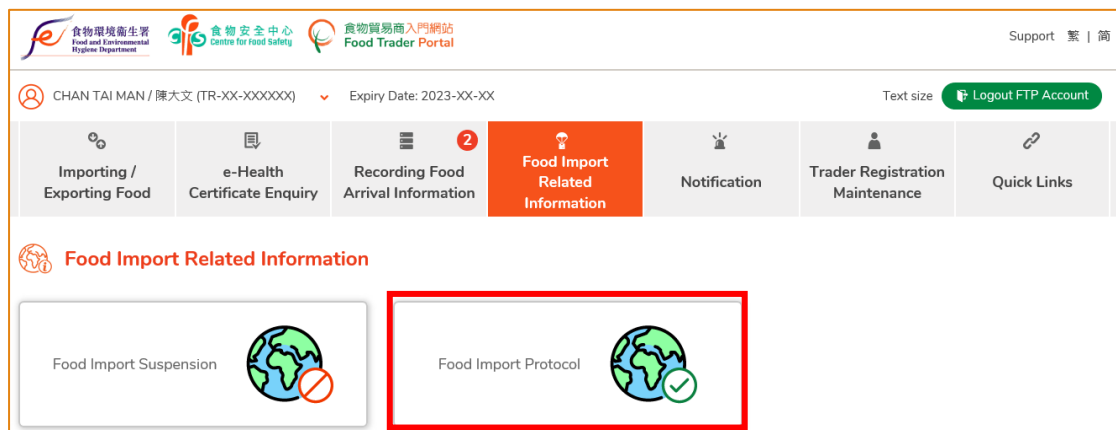

**FOOD IMPORT PROTOCOL**

**[STEP 1] GO TO FOOD IMPORT RELATED INFORMATION**

1. Login to Food Trader Portal (FTP) main page and then click **Food Import Related Information**.

2. Click on **Food Import Protocol**.

[STEP 2] SELECT FOOD IMPORT COUNTRY / FOOD TYPE

- You can view the current list of countries/places which have established import protocols for Meat, Poultry, Game and Eggs with Hong Kong and the types of food included in the protocols. Among these countries or places, information regarding the plants eligible for supply to Hong Kong are of two types. One is a list of plants provided to the Centre for Food Safety by the official authority of the relevant country or place, i.e. the **Establishment List** button in red.

The **Search Function** can help you look for the information you want. To look into detailed information on a particular establishment list, please click the corresponding **Establishment List** button.
